Roman Coin 1st Observation

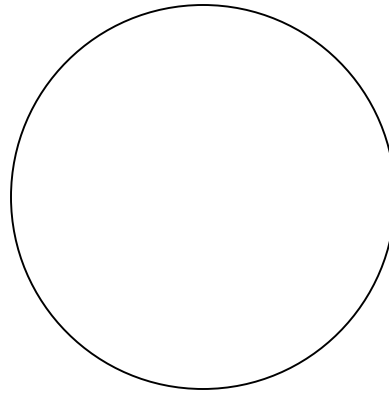

Directions:

In the circles below please draw what your coin looks like now. This is the first time you are observing your coin, and it may look different when we are done! Be sure to include any letters or shapes that you can see as well.

Obverse (Heads)

Reverse (Tails)

Describe how your coin looks. Include details on the color, if you can see any fine details, and how it feels. Describe it as if you were telling someone about it who can't see it, but will be able to picture it in their mind easily. Be sure to use complete sentences.
